"See You On The Other Side"

Visit "[See You On The Other Side](#)" on MotoLyrics.com

Look at you, stood there
With the sunlight in your head
Stand by me
You know there's something in the air
Oh no

Did you stick around cause there's something else to
learn
Or do you run to the other side where the grass is
always greener?

If you think you're all I'd see
Just a spark is all you need
Disappointment, slow the motion
But you're curious inside
Cast your eyes on question one
Silver clouds are drifting by
Take a jump and let it go
Or life will be the same
