I've got a friend inside my head but I can't convince the  
Rest of the World [4x]  
And the rest of the world can go screw themselves, just  
like  
I will any day. The rest of the world can go screw  
Themselves, just like I will, just like I will any day.  
I know that hate and war are bad but I can't convince  
the  
Rest of the World [4x]  
And the rest of the world can go screw themselves, just  
like

Themselves, just like I will, just like I will any day.

I know we have to change or die but I can't convince the  
Rest of the world [4x]  
I know this song is really great but I can't convince the  
I know this song is really great but I can't convince the  
I know this song is really special but I can't convince the  
I know this song is really great but I can't convince the  
Rest of the World. . . .
