## "Abolish Work"

Visit "[Abolish Work](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We must abolish work, not just a cheap cliché, just  
another trick to make the workers pay  
We must erase the timeline please, baby please, or we  
will end up dying on our bare knees  
We must destroy culture free commodity, their  
executives are all that you believe, yeah  
We must abolish work, not just a cheap cliché, just  
another trick  
We must abolish work, not just a cheap cliché, just  
another trick to make the workers pay  
We must erase the timeline please, pretty please, or we  
will end up dying on our bare knees  
We must destroy culture free commodity, their  
executives are all that you believe, yeah  
We must abolish work, not just a cheap cliché, just  
another trick to turn us all into slaves  
Come on now, where you been? i say open up, you say  
let me in  
Come on now, where you been? i say please, just say,  
just say when  
Reject the timeline, i'm losing my mind, reject the  
timeline, ooh we'll stay in line  
Reject the timeline, i'm losing my mind, reject the  
timeline, ooh we'll stay in line  
Reject the timeline, i'm losing my mind, reject the  
timeline, and ooh we'll stay in line  
Reject the timeline, i'm losing my mind, reject the  
timeline, ooh  
Yeah, yeah, yeah, i'm losing my mind
