They're five miles high, as the crow flies, leaving
blood-red vapour trails across the sky
Moving in from the east, towards the west, balaclava
helmets over their heads
YES!

Well if you think that Jesus Christ is coming
Honey you've got another think coming
If He ever finds out who's hijacked His name
He'll cut out His heart, and turn in His grave

Islam is rising, the Christians mobilizing
The world is on it's elbows and knees
It's forgotten the message and worships the creeds

"It's war," she cried, "It's war," she cried, "THIS IS
WAR!"
Drop your possessions, all you simple folk
You'll fight them on the beaches, in your underclothes
You'll thank the Good Lord for raising the Union Jack
You'll watch the ships sail out of harbour
And the bodies come floating back
You'll watch the ships sail out of harbour
And the bodies come floating back

Well if you think that Jesus Christ is coming
Honey you've got another think coming
If He ever finds out who's hijacked His name
He'll cut out His heart, and turn in His grave

Islam is rising, the Christians mobilizing
The world is on it's elbows and knees
It's forgotten the message and worships the creeds

If the real Jesus Christ were to stand up today,
He'd be gunned down cold by the CIA
For the lights that now burn brightest behind stained
glass
Will cast the darkest shadows upon the human heart

Because God didn't build himself that throne

And God doesn't live in Israel or Rome
God doesn't belong to the Yankee dollar
And God doesn't plant those bombs for Hezbollah
God doesn't even go to church
And God won't send us down to Allah to burn
God will remind us what we already know
That the human race is about to reap what it's sown

Islam is rising, the Christians mobilizing
The world is on it's elbows and knees
It's forgotten the message and worships the creeds

Armageddon days are here... again
Armageddon days are here... again
Armageddon days are here... again

ARMAGEDDON DAYS ARE HERE... AGAIN!
