Help me cause i can't understand, is this the progress  
that was planned?  
Help me cause i just can see what is new with this  
economy  
Yeah, labor camps, death zones seems like we've seen  
it before  
Yeah, free trade restructuring plans like money could  
ever give a damn  
Hold tight - hold tight, i got a feeling that something's  
not right tonight  
Hold tight - hold tight, i want to feel alive  
Hold tight - hold tight, i got a feeling that something's  
not right tonight  
Hold tight - hold tight, yeah  
Help me cause i can't comprehend feudal serfs with  
outstretched hands  
Help me cause i can't figure out what this freedom is  
all about  
Yeah, free to slave, free to pay nike shops will make  
our day  
Yeah, more ball and chain will lead the way to this  
globalisation wave  
Hold tight - hold tight, i got a feeling that something's  
not right tonight  
Hold tight - hold tight, i want to feel alive  
Hold tight - hold tight, i got a feeling that something's  
not right tonight  
Hold tight - hold tight, yeah  
Help me cause i can't understand, is this the progress  
that was planned?  
Help me cause i just can see what is new with this  
economy  
Yeah, labor camps, death zones seems live we've seen  
it before  
Yeah, free trade restructuring plans like money could  
give a damn, i said  
Hey hey hey, i don't get it  
Yeah, i don't get it
