"Abolish Work"

We must abolish work, not just a cheap cliché, just
another trick to make the workers pay
We must erase the timeline please, baby please, or we
will end up dying on our bare knees
We must destroy culture free commodity, their
executives are all that you believe, yeah
We must abolish work, not just a cheap cliché, just
another trick
We must abolish work, not just a cheap cliché, just
another trick to make the workers pay
We must erase the timeline please, pretty please, or we
will end up dying on our bare knees
We must destroy culture free commodity, their
executives are all that you believe, yeah
We must abolish work, not just a cheap cliché, just
another trick to turn us all into slaves
Come on now, where you been? i say open up, you say
let me in
Come on now, where you been? i say please, just say,
just say when
Reject the timeline, i'm losing my mind, reject the
timeline, ooh we'll stay in line
Reject the timeline, i'm losing my mind, reject the
timeline, ooh we'll stay in line
Reject the timeline, i'm losing my mind, reject the
timeline, and ooh we'll stay in line
Reject the timeline, i'm losing my mind, reject the
timeline, ooh
Yeah, yeah, yeah, i'm losing my mind
