Do you know, know my name? so where do we, do we
begin?
Papercuts, yeah, papercuts, yeah, papercuts from
writing too much
Do you know, know my name? let's make a list of our
complaints
Let's make a list, let's make a list, make a list and put it
to flames
Do you know how it feels to not owe anyone anything,
come on
Do you wanna know how it feels, yeah
Do you know, know my name? let's make a list of our
complaints
Let's make a list, let's make a list, make a list and put it
to flames
I'm tired of playing, i'm tired, make it all go away and
that's what i say
I'm tired of playing, i'm tired, make it all go away and
that's what i say
Do you know, know my name? let's make a list of
everything
Let's make a list
Do you know, know my name?
