Help me cause i can't understand, is this the progress
that was planned?
Help me cause i just can see what is new with this
economy
Yeah, labor camps, death zones seems like we've seen
it before
Yeah, free trade restructuring plans like money could
ever give a damn
Hold tight - hold tight, i got a feeling that something's
not right tonight
Hold tight - hold tight, i want to feel alive
Hold tight - hold tight, i got a feeling that something's
not right tonight
Hold tight - hold tight, yeah
Help me cause i can't comprehend feudal serfs with
outstretched hands
Help me cause i can't figure out what this freedom is
all about
Yeah, free to slave, free to pay nike shops will make
our day
Yeah, more ball and chain will lead the way to this
globalisation wave
Hold tight - hold tight, i got a feeling that something's
not right tonight
Hold tight - hold tight, i want to feel alive
Hold tight - hold tight, i got a feeling that something's
not right tonight
Hold tight - hold tight, yeah
Help me cause i can't understand, is this the progress
that was planned?
Help me cause i just can see what is new with this
economy
Yeah, labor camps, death zones seems live we've seen
it before
Yeah, free trade restructuring plans like money could
give a damn, i said
Hey hey hey, i don't get it
Yeah, i don't get it
