I want to smash it up for all the workers who spent
hours into nothing
I want to smash it up for all my sisters who got caught
up in this punk ass
System
I want to smash it up just like a locust, like a satellite
shooting rockets
I want to smash it up in every way I can and right now I
think I want to be
Your man
Smash it up when I'm down
I want to smash it up for all the kids who got fucked up
just like their
Parents did
I want to smash it up - the gods and masters who made
us die so much faster
Yeah you know I want to smash it up
Smash it up when I'm down
I want to smash it up for all the people and for our right
to be treated equal
I want to smash it up for all my friends I hope you stick
around until the very
End
Yeah you know we gotta smash it up
Smash it up when I'm down
