Ready for explosion, ready for explosion, unexpected
yeah, unpredicted ride
Gonna set it all on fire, gonna make it all just fade
away, just so we can't stay for long
The second heatwave, the second's coming coming all
over, over me
Like a rocketship all set to go, like a blast off to the
moon i told you so
Get ready to go yeah yeah, misdirection - insurrection -
with the conspiracy yeah
Cutthroat times, cutthroat times and trouble so they
say, anyway
Now it's time to play with each other, now it's time to
play another ???
There for the final one, there for the final time, we'll be
just fine, be just fine
Just give us a little bit of soul now, just give us a little bit
of soul and here we go!
Overload and explode! misdirection - insurrection -
with the conspiracy yeah
