As long as the beat is on

And I heard about pushing gas  
And let he money on the visa...  
Get the money on the ford type  
And I'm own it what you're thinking for  
And I... type flame can't type of...  
And I... finger on 'cause I... really know  
If I write what I sing alone  
And strike and relying twice

Want to pole in this... an impeccable character  
You wonder why you stare with you  
And if I was the smoking I would pull the air in you  
But you can get us high...
