Maybe this would be easier  
Second time around  
But every time I bring it up  
You try to bring me down  
Find someone else to crucify  
Coz didn't we have fun  
Don't you know that a little pain  
Never hurts anyone  
[Chorus:]  
Why can't you let it be  
You're living all over me  
Try taking a different view  
It's good for me and it's better for you  
Crack-down  
Right now  
So don't believe the powers that be  
They're colour blind and they can't see  
Can't understand what you can't kill  
You always have and you always will  
[Chorus]  
This isn't the answer to anything  
Love and damage  
[Chorus]
