"My Man"

Well my man knows how to thrill me
He thrills me both night and day
He's got a new way of loving
It almost takes my breath away

Well my mind is made up
If this is how life's gonna be
Gonna give my love to him
The same love he's been given to me

Well some folks believe in diamonds
Some folks believe in signs
Well my man's won me over
Just by taking his sweet time

There's something on your mind, baby
By the way you're looking at me
And what you thinking's got me buzzing
Buzzing like a honeybee

Oh, baby, your mind is fine
And your body's mellow as can be
Gonna keep my mind on you
If you keep your mind on me

Coz my man knows how to thrill me
He thrills me both night and day
He's got a new way of loving
It almost takes my breath away
