Know what this does  
Pull-up, you can  
Follow the leader  
No time to make sense of this plan

Make sense of this plan

Saw what it was  
Stick up, this man  
Into the alley  
No time to make sense of this plan

Make sense of this plan

Taken, by threat  
Lost all the choices you had  
Taken, not yet  
Put out, you can

Look what this does  
Wake up, can't stand  
Off of the sidewalk

No time to make sense of this plan

Tell what this was  
Burn up, this land  
Thought up the changes  
No time to make sense of this plan
