Welcome home Macbeth

It's been a long long time

And everyone knows you're here

It's easy to see they care

Banquo's been and gone

He's seen it all before

He took it and then he did walk it

He shook it and then he did rock it

And you know it's true

You never saw things quite that way

She knew it all

And made you see things all her way

Somebody knows for sure

It's gotta be me or it's gotta be you

Come on along and tell me it's alright

It's alright by me

Alas for poor Macbeth

He found a shallow grave

But better than a painful death

And quicker than his dying breath
