Sirens squelch the rise of terror

War for a third world resource  
Drain the oil running through my veins  
You depress their rights  
For another fucking buck  
Corrupt God's manna for gain  
Interfere with religious beliefs  
Mass cleansing for cash  
You declare this new world order

When you can't control your own  
Government people  
How the fuck are you gonna be able  
To control the world  
Terrorise every member of your holy state  
Another world leader get's away with genocide

Never give up your fucking friendly fire
