Development plans slated, wilderness negated.  
Green consciousness frustrated, MONKEYWRENCH!  
Conservation policy lies, ecotage on the rise.  
Logging equipment fouled...surprise,  
MONKEYWRENCH!

Biological meltdown, our culture puts nature down,  
Subversive action now, MONKEYWRENCH!  
Pristine forests felled, death for Earth is spelled,  
Our protest can't be quelled, MONKEYWRENCH!

"No compromise in defense of Mother Earth!"

Ecosystems erased, serenity displaced,  
Is progress taking place? MONKEYWRENCH!  
General apathy toward destructive tendencies,  
Can't people fucking see the need to  
MONKEYWRENCH!?!
