The Anarchists Pogo Party
"Take It Too Far"

Visit "Take It Too Far" on MotoLyrics.com

Tryin' to keep straight but you left it too late
The drink is beating you hands down
You once made a wish that before you got old
You'd be six feet under ground
You party so hard you keep forgetting your name

And the dope has gone to your head
Got a hundred tattoos all your rings and your chains
You've really got your mother scared
Go slow there are things you don't know

You always take it too far woah, oah
Just who do you think that you are?
You always take it too far
You need to say what, cos the ring in your ears

Is louder than a V8 car
You never say stop and as the sun's comin' up
You're the only one at the bar
Go slow there are things you don't know

You always take it too far woah, oah
Just who do you think that you are?
You always take it too far
You're just like a shooting star

Always taking things too far
Go slow there are things you don't know

You always take it too far woah, oah
Just who do you think that you are?
You always take it too far
