[Chorus: Danielle Ray & DJ Mercilless] This is going on each day around you just take a look and see We can't always believe (no we can't) What we see on T.V. (uh uh) [Verse 1: Cale Sampson] What's up with Paris Hilton being treated different? Just because she's rich she gets to get out of prison If she was really in jail, she wouldn't last an hour Especially if she ever dropped soap in the shower These party chicks like Lindsay Lohan And Nicole Richie are out of control man Their supposed to be role models to young girls While they're drinking and driving and starving themselves Sick of wannabe rappers like Kevin Federline C'mon man, my grandma could write a better rhyme Couldn't even sell and he's a celebrity He should of just stuck to freeloading off Brittny But she's no better when she gets bad news She goes and shaves her head and gets a bunch of tattoos Yelling at her kids and eating a Big Mac While trying to drive her self back home from rehab [Chorus 1: Cale Sampson] Everywhere you go (go) anywhere you look It's all a big show, so many people getting hooked Yo with all the Distractions (Distractions) We gotta be aware, man it's time to take action ** [Chorus 2: Danielle Ray & DJ Mercilless] This is going on each day around you just take a look and see We can't always believe (no we can't) What we see on T.V. (uh uh) [Verse 2: Cale Sampson] These days you gotta be careful what you do Or end up naked in a movie on Youtube People shoot you when you don't even know it With cell phone cameras then go around and show it So if you got drunk off too many pitchers You might wake up and be tagged in fifty pictures For all your friends on Facebook to see "Hey!" there's no such thing anymore as privacy It's a crazy world, this day in age You got girls lining up to marry Flavor Flav "I Like!" getting sick of Donald Trump When's someone gonna say "You're fired you little chump!" Some dude from N'Sync announced "I'm Gay!" No way Jose, we all thought you were straight Geez' no one would have ever thought that would happen Guess he probably saw that movie Brokeback Mountain [Chorus 1: Cale Sampson] Everywhere you go (go) anywhere you look

It's all a big show, so many people getting hooked Yo
with all the Distractions (Distractions) We gotta be
aware, man it's time to take action ** [Chorus 2:
Danielle Ray & DJ Mercilless] This is going on each day
around you Just take a look and see We can't always
believe (no we can't) What we see on T.V. (uh uh)
[Verse 3: Cale Sampson] Tell me where on earth is
Osama Bin Laden I think we need Dog the Bounty
Hunter to catch him Why is it so hard to see this guy
Are we just blind, somebody call C.S.I. Cuz' Tom Cruise
is acting strange on Oprah Screaming "I'm in love!",
jumping around on her sofa Now Katie Holmes is part
of his colony That protects earth, "It's the church of
Scientology!" A crazy guy in North Korea wants control
Over the globe even if it means the end of the world
And Hurricane Katrina, have we already forgot her
There's still people in New Orleans waiting and
treading water The world's at war, that's reality Who
cares about Brad Pitt and Angelina Jolie So if you
agree, let's all make some more noise Sing it with me
once more, at the top of your voice [Chorus 1: Cale
Sampson] Everywhere you go (go) anywhere you look
It's all a big show, so many people getting hooked Yo
with all the Distractions (Distractions) We gotta be
aware, man it's time to take action ** [Chorus 2 - 2X:
Danielle Ray & DJ Mercilless] This is going on each day
around you Just take a look and see We can't always
believe (no we can't) What we see on T.V. (uh uh)
