A place in the country that's a place for me  
House in the meadow songbirds in the trees  
And someone to love me as each new day starts  
In a place in the country with a place in a country boy's  
heart.

But guess I'd better stop dreaming or I'll miss my train  
It's six blocks to the subway and it's starting to rain  
Got a job in the city but I wasn't too smart  
To leave a place in the country and my place in my  
countryboy's heart.

Just cant' stay in this city I was meant from the start  
For a place in the country and a place in my  
countryboy's heart.

--- Instrumental ---

Just cant' stay in this city I was meant from the start  
For a place in the country and a place in my  
countryboy's heart..
