Get out your junkshop banjo get out your walkin' shoes  
Fall in with the band you can play too  
You don't have to be real good now you don't have to  
know the songs  
Fall in with the band and play along.

Maybe we can get the people to singin' songs that they  
never sung  
Get to them one by one I hope they listen  
Maybe if we keep 'em busy singin' they won't have time  
to hate  
Maybe we can get 'em straight if they listen.

March out across the desert march out across the sea  
Fall in with the band and come with me  
You don't have to sign no papers you don't have to pay  
no dues  
Fall in with the band you just can't lose.

Maybe we can get the people to singin' songs that they  
never sung  
Get to them one by one I hope they listen  
Maybe if we keep 'em busy singin' they won't have time  
to hate  
Maybe we can get 'em straight if they listen.
