[Both]

I love you you no one else will ever do always true
true true I'll forever be to you

I love you no one new will never ever do I'll always be
true to you cause I love you

[Bobby]

The wedding bells are ringing in the chapel just over
the hill

They're ringing for the wedding of my best friend Bill
He wed the girl I loved and I'd rather to die than to live I
got to choose

Cause I've lost her and I've lost the friend

But there's one thing I'd never lose that's the way that
she says

[Skeeter]

I love you you no one else will ever do
Always true true true I'll forever be to you

[Bobby]

Yes in her shy sorta way I could leave you here now
cause I like she was here today

She said she would always love me she would always
be good and true

Yes that's one thing I'll never forget the way she says

[Skeeter]

I'll always be true to you cause I love you

[Both]

I love you you you...

I'll always be true to you cause I love you
