"Love Love Love"

I gotta have love love love love more than anything in
this world
Just give me love love love love lovin' you have one
happy girl

No I don't need no fancy clothes and pretty diamond
rings
No fur coat no man's dough I don't need none of those
things
I don't want a great big mansion and care yacht on
wide sea
A little house for two and me and you and love is all I
need
I gotta have love...
[strings]
I gotta have love...

Now some girls find material things to build their
queensdom homes
But love will always be around when all these things are
gone
So give me love and heart and flowers and dreams
then can come true
Keep me by your side and I'll be satisfied cause I know
live is you
I gotta have love...
