(Clyde Pitts - Billy Deaton)

Well I've known some sad situations before  
And I've faced a lot of temptations before  
Yes I've known others like you with a heart made of  
stone  
And by now I guess I should be used to living alone.

It's a sad situation not just because I'm so blue  
It's a sad situation cause I'm still loving you.

--- Instrumental ---

I never thought I'd be feeling like this  
Living on mem'ries of your tender kiss  
You're not the first one that I thought my heart wanted  
so  
But you'll be the first one to take part of me when you  
go.

It's a sad situation not just because I'm so blue  
It's a sad situation cause I'm still loving you...
