(Wayne Cogswell - Dolores Cogswell)

Someday, someday you're gonna miss me
Someday, someday wait and see
You made a fool of others
But you won't make a fool out of me.

Someday, someday you're gonna need me
Someday someday wait and see
When yo,u're alone you'll be sorry
Then you'll wish you could be with me.

You thought you could make love to another
Tell lies and break my poor heart in two
Well, I've got some news to shock you brother
I won't be there to kiss away your blues.

Someday, someday when you're lonely
Someday, someday wait and see
When your heart is broken by another
Then you'll know that your love is meant for me.

--- Instrumental ---

You thought you could make love to another
Tell lies and break my poor heart in two
Well, I've got some news to shock you brother
I won't be there to kiss away your blues.

Someday, someday when you're lonely
Someday, someday wait and see
When your heart is broken by another
Then you'll know that your love is meant for me...
