(Skeeter Davis - Linda Palmer)

Stay awhile with me I bet we could be happy
I won't ask for promises I know that you can't keep
We'll live and love from day to day won't worry about
tomorrow
Make me smile stay with me awhile.

I knew I had a friend the first time that I saw you
And I could tell that you knew you had found a friend in
me
So now that we're together love let's don't fight this
feelin'
Make me smile stay with me awhile.

Stay with me awhile and if you find that you're not
satisfied
There will be no strings to bind you if you wanna leave
But if you go you cannot say I lied and cried and tried
to hold you
I'll just smile you stayed with me awhile.

Stay with me awhile and if you find that you're not
satisfied...
There will be no strings to bind you if you wanna leave
But if you go you cannot say I lied and cried and tried
to hold you
I'll just smile you stayed with me awhile.

I'll smile stay with me awhile
Make me smile stay with me awhile
Want a smile come on and stay with me awhile...
