Still though you broke my heart still though we're far
apart
I love you still
Still after all this time still you're still on my mind
I love you still.

I've lost count of the hours and I've lost track of the day
In fact I've lost just about everything since you went
away
Everything that is except the mem'ries you left me
And that's one things that no one can mar
I don't know who you're with and I don't even know
where you've found
My only hope is that some day you might hear this song
And you'll know that I sung it for I love you wherever
you are.

Still though you broke my heart still though we're far
apart
I love you still
Still after all this time still you're still on my mind
I love you still.

This flame in my heart is like an eternal fire
For every day it burns hotter and every day it burns
higher
And I haven't been able to put out one little flicker
Not even with all my tears
Youn know all my friends think I'm crazy well maybe I
am
But I'll carry this torch just as long as I can
For someday you might just decide to come home
And I want you to know I'm still be there.

Still though you broke my heart still though we're far
apart
I love you still...
