(Helen Carter)

Walk softly darling you're steppin' on my heart
And every trampled part is truly yours
Walk softly darling each thoughtless step you take
Is making my heart break a little more
(Walk softly, walk softly.)

You tell me that you just want to be sure
That my love is the one
You're playing the field to find out if it's real
But while you have your fun.

Walk softly darling my heart's the breaking kind
And looking close you'll find your footprints there
(Walk softly, walk softly.)

--- Instrumental ---

Walk softly darling my heart's the breaking kind
And looking close you'll find your footprints there
(Walk, softly...)
