(Skeeter Davis)

You call this love I call it hate .

You tell me you love me but that can't be true  
Or you wouldn't hurt me the way that you do  
You tell me such sweet things but you treat me so bad  
Why you're even smiling when you make me sad.

You call this love how can it be  
This can't be love you feel for me  
Your mind must be twisted you don't have things  
straight  
You call this love I call it hate.

--- Instrumental ---

You ask my forgiveness and tell me you'll change  
Each time I forgive you you hurt me again  
You say let's start over but now it's too late  
What you call love I know as hate.

You call this love how can it be  
This can't be love you feel for me  
Your mind must be twisted you don't have things  
straight  
You call this love I call it hate.

You call this love I call it hate...
