# Skeeter Davis
# "You Done Me Wrong"

(Ray Price - Stan Jones)

Well, you tell me that you care but now you're gone you
got me cryin'
No use denyin' you done me wrong
If I could look inside your heart then maybe I would
know the reason
Why you were leavin' me all alone.

Well, you know it's not so when you say it's right for you
know you lie
I didn't do one wrong thing to you
Won't you tell me baby why you went and left me here
so lonely
I miss you only for I love you.

--- Instrumental ---

Did I ever make you sad so you'd be mad enough to
hurt me
And desert me for so long
Well, you're tellin' everyone what you done you think
it's funny
Well listen honey you done me wrong.

Well, you know it's not so when you say it's right for you
know you lie
I didn't do one wrong thing to you
Won't you tell me baby why you went and left me here
so lonely
I miss you only for I love you...
