

The August Name

"Believers Never Die"

Visit "[Believers Never Die](#)" on MotoLyrics.com

Lost sight of everything living in a world of lines
Written for man to bring order to life
In time with the curtains drawn light will seek it's way
Onto dark walls with intention to stay

Searching for something that will set me free
I'll await the day while roaming the streets

[Chorus:]

Just live your life, take my advice
The place we're in right now just will not suffice
Hearts beating hard from serendipity
Listen to me
Believers never die

Momentum gains with steps of forward stride
Motion that never waits for anyone left behind
For those who wait hope will surely grow faint

A change in heart is not a fate I will take
No exception, let my mind fade away
