

The Autumn Portrait

"This Is The Life"

Visit "[This Is The Life](#)" on MotoLyrics.com

Escape to a place, find everything you need
Embrace all the hurt, cause it's calming when you
bleed

Perfection is a waste, imperfection is what you need

This is the life that we wanted, we wanted to find,
That we wanted to find
No longer haunted we live for, we live for the night,
Ya we live for the the night

Take all the love, find out what it means
If later comes too soon, then soon enough we'll be

If we could take some time, cause your timing is killing
me

This is the life that we wanted, we wanted to find,
That we wanted to find
No longer haunted we live for, we live for the night,
Ya we live for the the night

Perfection is a waste, imperfection is what you need

This is the life that we wanted, we wanted to find,
That we wanted to find
No longer haunted we live for, we live for the night,
Ya we live for the the night

This is the life that we wanted, we wanted to find,
That we wanted to find
No longer haunted we live for, we live for the night,
Ya we live for the the night
