[Chorus: Skepta]

But you just wanna stay in your house, your very big house in the country.

You don't wanna come out your house, your very big house in the country.

Wiley you just wanna stay in your house, your very big house in the country.

You don't wanna come out your house, your very big house in the country.

[Verse 1: Skepta]

Yo zip it up. How can you be a king when you roll through anywhere. Wiley you don't roll through anywhere. I go anywhere blood I'm never scared, you said you rep E.3 but you're never there.

So lemme merk this guy it's all in your name fam I don't need to try. I take away the W, I take away the Y fix up the other letters all you do is just lie.

{PULLLLLLL UPPPPP}

Wiley you don't roll through anywhere. I go anywhere blood I'm never scared, you said you rep E.3 but you're never there.

So lemme merk this guy it's all in your name fam I don't need to try. I take away the W, I take away the Y fix up the other letters all you do is just lie.

Chat shit talking like Barnets a joke I got some Barnet guys moving keys of coke, got some niggers on Dollies Valley that ain't scared to poke. Christmas eve running riot outside the Hadley Oaks.

Madness, Wiley you need to chill ask anyone around me if I keep it real. And God knows if I ever made a mil I'll still be doing shows in my hood for a bill.

[Chorus: Skepta]

But you just wanna stay in your house, your very big house in the country.

You don't wanna come out your house, your very big house in the country.

Wiley you just wanna stay in your house, your very big house in the country.

You don't wanna come out your house, your very big

house in the country.

[Verse 2: Skepta]

Listen yo, Wiley I swear you're Boy Better Know but I can't see your face when we do a show. Last time you came London was ages ago now you need a tom-tom just to get around Bow.

You can't chat about Barnet zip it up, pass me the north-side flag lemme liff it up. Wiley you dropped yours fam pick it up musta been gassed up when you wrote zip it up.

Back to reality you're living with the aliens I don't know what made you think it was moist TV. It's the greaziest block in the former radius.

Blood I got the voice that everybody listens to when I'm talking and nobodys gonna zip it up when you walk in. You own 2 cars you own a bike but you're still home alone like Macaulay Culkin,

[Chorus: Skepta]

But you just wanna stay in your house, your very big house in the country.

You don't wanna come out your house, your very big house in the country.

Wiley you just wanna stay in your house, your very big house in the country.

You don't wanna come out your house, your very big house in the country.

You just wanna stay in your house, you don't wanna come out your house.

Fam you're scared like a mouse in your very big house in the country.

You just wanna stay, Wiley you just wanna stay.
