Its cold outside  
Its burning up in the club  
I know your feeling the heat  
I know you feel the love (EVERYBODY DANCE NOW!)  
Ah black snapback black beanie  
And my chain so bright they can see me  
I do it how they see me do it on the tv  
But you just aint looking the same in 3D  
Your living a lie, im living a dream  
Table full of champagne, chilling with the queen  
Razor sharp blade in my guillotine  
Soon as I get ahead I'm bringing the team  
BBK, i'm bringing the team

Hundred percent UK we're killin the scene  
Now they hooked on the sound like it's nicotine  
They got arms streched out like a limousine  
I got my shades on tell em I still see em  
Tell all my haters i wouldn't wanna be em  
My teams strong like the bricks in the colloseum  
(EVERBODY DANCE NOW)  
(YEAH!)

Chorus:

So lets make peace not war  
I see girls from all over the world on the floor  
Tell the DJ replay give me more (DJ--jj replay give me  
more)  
So lets make peace not war  
I see girls from all over the world on the floor  
Tell the DJ replay give me more

(every body dance now)  
(every body dance now)  
(every body dance now)

Its cold outside  
Its burning up in the club  
I know you're feeling the heat  
I know you feel the love  
(every body dance now)

HUH?! Bad Karaoke and good melodies  
Bad hangovers and good memories  
But right now ima do it how I say I do it  
Ima jump that hurdle when I get to it  
I'm looking at her looking at me  
I'm the ginger bread man come and catch me  
Talk of the town you can be my TT  
A housemate in my celebrity BB  
You looking like a star, where' your manager?  
Ten out of ten from the front now back it up  
These other guys just aint got the stamina  
Me? I rock and roll like Noel Gallagher  
So why they hating on the king for, Huh?  
So why they hating on the king for?  
I'm just living my life, better live yours

(every body dance now)  
Chyeahhh!!

So lets make peace not war  
I see girls from all over the world on the floor  
Tell the DJ replay give me more (DJ--jj replay give me  
more)  
So lets make peace not war  
I see girls from all over the world on the floor  
Tell the DJ, replay give me more (everybody dance  
now)

(everybody dance now)  
(everybody dance now)

Its cold outside  
Its burning up in the club  
I know your feeling the heat  
I know you feel the love  
(every body dance now)
