I feel alone, tonight  
I know there's no one in sight  
It keeps me damaged through the night  
It lets me know I'm not alright, so I cry  
It lets me know no other way until I start a brand new  
day  
I'm ok

When I sink into you  
I sink into this  
When I saw right through you  
Oh I, Oh I can't live in this

I feel I'm dying inside  
I want to be alive  
It hurts so bad to think of you and all those things we  
used to do  
Just me and you  
I think about us everyday day like nothing ended like it  
was fake  
Keep me awake
