"Burnt Like You"

You'll always be a born
Worn out loser
Still blaming all of us
For your bad choosing

No I can't watch the same mistake
Waiting for the boys to turn out straight
No I can't run the same dog race
And get burnt like you

You're swollen in the gut
From all those last nights
Still swinging vodka punches
That don't land right

No I can't watch the same mistake
Waiting for the boys to turn out straight
No I can't run the same dog race
And get burnt like you

No I can't watch the same mistake
Waiting for the boys to turn out straight
No I can't run the same dog race
And get burnt like you

No I can't watch the same mistake
Waiting for the boys to turn out straight
No I can't run the same dog race
And get burnt like you
