Know what's wrong is tomorrow  
We've only got the minute and we're in the wrong, eh  
Try all yuh things and nuh wid sorrow  
We strength is a thing that none of us can borrow, see

What are you gonna do?  
With the time you have left  
As you live on this planet  
Yes, it's all up to you  
What you do with yourself  
Well, there's no time for panic

Reflect the ricochet, get up off your knees and say  
We're moving forward and yuh keeping on  
What can you do to me, overthrow the enemy  
This is a new day and we coming

Invincible  
Don't you know you couldn't test we  
Invincible  
Back up yuh not ready  
Invincible  
We rollin', that's the way it's gonna go  
Invincible  
Right now, you gonna let them know, so

Raise up your fist if yuh life is war  
Woaaaah  
You gotta know that it's all worth fighting for  
We're Invincible, Invincible

Nobody move, you gonna get hurt  
And anybody here above, bite the dirt  
We armed and dangerous, and with the V  
We ready fi the bottle and to fret the enemy

What are you gonna do?  
With the time you have left  
As you live on this planet  
Yes, it's all up to you  
What you do with yourself

Well, there's no time for panic

Reflect the ricochet, get up off your knees and say  
You're moving forward and you're keeping on  
What can you do to me, overthrow the enemy  
This is a new day and we coming

Invincible  
Don't you know you couldn't test we  
Invincible  
Back up yuh not ready  
Invincible  
We rollin', that's the way it's gonna go  
Invincible  
Right now, you gonna let them know, so

Raise up your fist if yuh life is war  
Woaaaah  
You gotta know that it's all worth fighting for  
We're Invincible, Invincible

The day of reckoning is surely upon us.  
We shall embrace and receive only victory in this hour.  
Who has dared to come and test this unstoppable  
giant.  
Now witness the fool as they lay silent.

What can you do to me, overthrow the enemy  
This is a new day and we coming

Invincible  
Don't you know you couldn't test we  
Invincible  
Back up yuh not ready  
Invincible  
We rollin', that's the way it's gonna go  
Invincible  
Right now, you gonna let them know, so

Raise up your fist if yuh life is war  
Woaaaah  
You gotta know that it's all worth fighting for  
We're Invincible, Invincible  
Yeah, we're invincible  
Invincible  
We're all Invincible  
Yeah, we're invincible  
Invincible
