Run dem chase, dem run dem,  
Chase dem we ah fe run dem chase dem  
Why you carry on in such an evilolus way  
Cutting your eyes and throwing daggers every day  
Forgive them becouse dem no know what dem ah do  
You no do dem nothing but them still ah dog you  
Dem see you with a little and they get envious  
Slader your name and they talk and they curse  
They don't want to see you blessed look right and  
proper  
They would prefure to see your whole family dem  
suffer  
What the hell is wrong with you  
You want to make me sad and blue  
Just move away i refuse to hear a word you say  
Anit down with you how much you never knew  
Know get yourself away from me  
(bridge)  
Run dem chase run the whole of them run  
Run the boldhead outer ya

Is only satan dem have in dem defence  
Vampire and lier twisted false pretence

And they chat pure fart and total nonsense  
There ignorance is there death sentence what!

What the hell is wrong with you  
You want to make me sad and blue  
Just move away i refuse to hear a word you say  
Anit down with you how much you never new

Know get yourself away from me  
(bridge)  
Run dem chase run the whole of them run  
Run the boldhead outer ya

Run der boldhead outter ya  
Run dem chase run the whole of them run  
Run the boldhead outer ya  
We ago run dem chase dem run the whole of dem run  
Run der boldhead outter ya  
Middle 8  
What the hell is wrong with you  
You want to make me sad and blue  
Just move away i refuse to hear a word you say
