Time for talking to, work it all out  
Can not the pressure nuff addy youth dem ah shot  
Children suffering screams are in vain  
An they're dealing with the tormenting again and again  
Time for stalling lets work it all out  
Some will use the tongue to spit their venom about  
Sticks and stones hurt and words they can kill  
Harassment and oppression, why can't people just chill  
The rude boys are coming so get out of here  
Find a place to hide because nuff youth dem ah fear  
Stand in ah dem way you know you will disappear  
The rude boys are coming and I, I just don't fear  
We don't fear rude boy get out of here  
With your bully boy tactics you disappear  
Don't fear rude gal get out of here  
With your bad gal business, disappear  
In the play yard the battle is on  
And who is going to tell them  
That their vibes dem is wrong  
Teachers shouting lets sort this out  
But when she turns her back  
They smack you straight in the mouth  
Gunner get you with intimidation  
Stand up and be counted cause a counteraction  
Turn the tables to know how it feels  
You would want them to stop if it was them on your  
heels  
The rude boys are coming so get out of here  
Find a place to hide because nuff youth dem ah fear  
Stand in ah dem way you know you will disappear  
The rude boys are coming and I,  
I just don't fear  
We don't fear rude boy get out of here  
With your bully boy tactics you disappear  
Don't fear rude gal get out of here  
With your bad gal business, disappear
