"My Baby Don't"

Visit "[My Baby Don't](#)" on MotoLyrics.com

Late at night I hit the floor
Then I head out the door
When you stare me in the eyes
Stars fall from the sky
You can try and put them back
But they will never stay like that
Show me how to fix it all
Show me how to catch the stars

My baby don't walk to me
My baby was killed by the sea
My baby's got nothing for you
My baby fell in love with you

People cry and then they die
Leaving everything behind
Walk the lonely streets at night
Lock you kids up safe tonight

My baby don't walk to me
My baby was killed by the sea
My baby's got nothing for you
My baby fell in love with you

Ooooooh, Oooooh
Ooooooh, Oooooh

My baby don't walk to me
My baby was killed by the sea
My baby's got nothing for you
My baby fell in love with you

My baby don't walk to me
My baby don't walk to me
My baby don't walk to me
My baby don't walk to me
