It doesn't matter If your wrong or right
It doesn't matter what youv'e got to say
It doesn't matter if your black or white
They never listen to you anyway

It's called the war
It's called the war on drugs
Can't take time to heal
Because we've all been made to kill

Your so busy being number one
You let the politicians lead your way

My USA
Take Me Away

Welcome to the United Police States Of America
(Spoken)

The whites hate the blacks
And the blacks hate the whites
But the cops are the ones we all fear

White nigger, black nigger, yellow nigger, jew
The cops have got enough hate for all of you

It doesn't matter If your wrong or right
It doesn't matter what youv'e got to say
It doesn't matter if your black or white
They never listen to ya anyway

My USA
Take me away
