Bring this tune forward and play this tune here star!
Now people, certain people dem a deal with the guns
and the crack and coke and dem ting der you see.
We got no respect and we no response fe dat seen
Skindred sound, Union Black.
Bring it, right.

Every day another shot goes bang.
You've got to know, and got to understand.
Every day another youth gets drop.
And I and I we just ain't down with that.

Now everyday you see the sun come up.
Another chance to go and show some love.
And everyday another youth gets drop.
And I and I we just ain't down with that.

Oh yer!

Union Black radio station, bringing music to the people.
Dem hear this community oh yer!

Guntalk, in the neighbourhood.
And the bad youths dem ain't up to no good.
Wanna be gangsters in addy community.
Making life hard for you and me.
You see the rudie, him ah fire him shot.
When him lick a shot you know ah you get drop.
That's the way it is, and it ain't no good.
We could live much better in this neighbourhood...

Every day another shot goes bang.
You've got to know, and got to understand.
Every day another youth gets drop.
And I and I we just ain't down with that.

Now everyday you see the sun come up.
Another chance to go and show some love.
And everyday another youth gets drop.
And I and I we just ain't down with that.

Well well well well well well wella well well well.
Coz we no want them kinda ting in addy
neighbourhood.
Well well well well well well wella well well well.

Guns are blazing, like in the old wild west.
Youths are saving up to buy a bullet proof vest.
Watch the bad mans, dem no care about you.
Quick to draw a gun and that's the end of your crew.
This is crazy, how they want to live.
Everybody wants revenge and no-one wants to forgive.
For territory, they will end your life.
There's so much drama, daily strife!

Every day another shot goes bang.
You've got to know, and got to understand.
Every day another youth gets drop.
And I and I we just ain't down with that.

Now everyday you see the sun come up.
Another chance to go and show some love.
And everyday another youth gets drop.
And I and I we just ain't down with that.

Oh yeah.

Every day another shot goes bang.
Every day another youth gets drop.
Every day another shot goes bang.
Every day another youth gets drop.
Every day another shot goes bang.
Every day another youth gets drop.
