Show me your paleface
Show me your paleface
Show me your paleface

You've been the paleface all the day
Yeah, you never meant anything
You're just a paleface anyway
The blind walk the blind
You mean nothing

Blind will see
Show me your paleface
Blind will see
Show me your paleface
Show me your paleface

You've been the paleface all the day
Yeah, you never meant anything
You're just a paleface anyway
The blind walk the blind

Show me your paleface
Show me your paleface
Show me your paleface
The blind walk the blind

Blind will see
Blind will see
Show me your paleface
Blind will see
Show me your paleface

You never meant anything
You never meant a fucking thing to me, paleface!
Woah, show me your paleface

You're just a paleface all the day
Yeah, you never meant anything
You're just a paleface anyway
The blind walk the blind

Show me your paleface
Show me your paleface
Show me your paleface
The blind walk the blind
You mean nothing

Blind will see
Blind will see
Show me your paleface
Show me your paleface

Woah, you never meant anything
You never meant a fucking thing to me, paleface!
Oh, show me your paleface

You never meant anything
You never meant a fucking thing to me, paleface!
Show me your paleface
Show me your paleface
Show me your paleface
