Time for talking to work it all out  
Cannot get the pressure nuff addy youth dem ah shout  
Children suffering screams are in vain  
An they're dealing with the tormenting again and again

Time for stalling lets work it all out  
Some will use their tongue to spit their venom about  
Sticks and stones hurt and words they can kill  
Harassment and oppression, why can't people just  
chill?

The rude boys are coming so get out of here  
Go find a place to hide because nuff youth dem ah fear  
Stand in ah dem way you know you disappear  
The rude boys are coming and I, I just don't fear

We don't fear rude boy get out of here  
With your bully boy tactics you disappear  
Don't fear rude gal get out of here  
With your bad gal business, disappear

In the play yard the battle is on  
And who is gonna tell them that their vibes dem is  
wrong  
Teachers shouting lets sort this out  
And when she turns her back  
They smack you straight in the mouth

Gunner get you with intimidation  
Stand up and be counted 'cause a counteraction  
Turn the tables to know how it feels  
You would want them to stop if it was them on your  
heels

The rude boys are coming so get out of here  
Go find a place to hide because nuff youth dem ah fear  
Stand in ah dem way you know you disappear  
The rude boys are coming and I, I just don't fear

We don't fear rude boy get out of here  
With your bully boy tactics you disappear  
Don't fear rude gal get out of here

With your bad gal business, disappear

We don't fear rude boy get out of here  
With your bully boy tactics you disappear  
Don't fear rude gal get out of here  
With your bad gal business, disappear

I just don't fear

We don't fear rude boy get out of here  
With your bully boy tactics you disappear  
Don't fear rude gal get out of here  
With your bad gal business, disappear

We don't fear rude boy get out of here  
With your bully boy tactics you disappear  
We don't fear rude gal get out of here  
With your bad gal business, disappear

We don't fear rude boy get out of here  
With your bully boy tactics you disappear  
We don't fear rude gal get out of here  
With your bad gal business, disappear

I just don't fear  
I just don't fear  
I just don't fear
