If my condition went from bad to worse then you'd be there. if I should make mistakes, you'd laugh and say that you didn't care. when you smile, oh when you smile. you make the sunlight go and hide in shame. I know these times would never end. I know that you are truly my friend. it makes me happy just to hear your voice on the phone. and when I'm feeling down, I know that I am never alone. when you smile, oh when you smile. all the angels go and fall from grace. I know these times would never end. I know that you are truly my friend. and when I look into your eyes I know that time would stop. and when we hold each other realizing just what we've got. it's just you and me. it's just you and me. and everything else seems so infantile. I know these times would never end. I know that you are truly my friend.
