Under a cave-in beaten
Educated and believes
Alone a gun the sun
Into the breach from which it came

Aside from writing walls up
Put on as if facts to see
Reactions cause deferral
From a passed on future's needs

Pissing on clocks uncertain
Heavy breathing can he breathe
This test is way past stress points
Pushes buttons full release

They change the world for certain
Meaning and false profits made
We're spending all the future
Future's never ours to see

Pack it up
(Spin with contented vision)
Back it out
(Put it back in its place)
fade for a while my black eyes colorize

Pack it up
(Stop losing our position)
Shake it out
(Putting up with his place)
Stained bloodied eyes red full of lies colorize

Fade out in one act
Over turning never ending dream
All coming caught up in
The moments we can never see

Aside from writing walls up
(forever hating)
Put on as if facts to see
(forever getting)
Reactions cause deferral

(forever taking taking taking...)
From a passed on future's needs

Pack it up
(Spin with contented vision)
Back it out
(Put it back in its place)
Shade for a while my black eyes colorize

Pack it up
(Stop losing our position)
Shake it out
(Putting up with his place)
Stained bloodied eyes red full of lies colorize

The party's lost a lot of cash and forest for the trees
They're living this day cannot never older than my
trees

Eyes gonna hate
Want want wanna wanna wake up
Wanna wanna wake up

Eyes don't hate what
Wanna wanna wake up
Wanna wake up
Wanna wanna wake up

Eyes gonna hate that
Wanna wanna wake up
Eyes gonna hate that
Wanna wanna wake up

Eyes don't fake that
Wanna want to make up...
