

Skinny Puppy **"Human Disease"**

Visit "[Human Disease](#)" on MotoLyrics.com

Blast and raw eye blood shot lid color concealed
crimson trap thin
Lit mess code of darkness stop the ocean counting
blood coughing blood
And needle syringe in the islang thirst of drought raise
through the
Real end ozone layer ultraviolet embalms sunless fire
mistrust abandoning
Day long sinking monotones out to please to pattern
the grey rain falls
It drizzle colors negate so wild let it slide down time
colors look crimson
Trains inside lost my footing ooze bite ant landslide no
finding what
Through a lost door somewhere out there in open
space where is there space
To get off and go on there on tv the polluted lies the
polluted noise
Mistrust no longer they don't give advice mono matters
all to pleasing nobody
The grey rain drizzles down my face negate mistrust
dementia
