and would not and it could not cause it would not fade  
away and it could not ??? justice  
??? just go on ??? in this way ??? (skin?) off the street  
the doctors the psychopaths  
they are articulate to government for their right to kill  
i've seen it you thought it  
was beneficial but it kills natural ways of looking at life  
insist upon respecting the  
(christ?) you've got to believe it they're there for a  
reason not for your own  
replicated diseases kill to cure to kill to cure to kill to  
cure and I walk about and  
see all the youngsters believing in what they're taught  
to believe I wish I could say  
hey wait a minute don't go astray believe in respecting  
life in all it is why so we can  
see everything comes back in threes respect the  
(signs?) killer justice and hate and  
greed I hate to believe everything they see ??? (escape  
this eye?) no no no no no  
denying whats killing is the truth they'll always be there  
we take young ape cat dog  
anything mutilate their souls it reflects on our own we  
cannot see the short term what  
it will be it will create with all our antibiotics it's just a  
farce a money making  
commercial pit of shit all that i ask you is that you read  
something about everything  
that is wrong with this we cant say it ??? so in a fucked  
up way I can't even seem to  
say what I want to say but heaven knows heaven  
doesn't know heaven doesn't know kill to  
cure cures that kill kill to cure and cures that kill we kill  
to cure with cures that  
kill this country doesnt make much sense imagine if  
you took your child, girlfriend,  
mother and took out and reversed every product of  
naturalness there's a man that takes  
pregnant dogs through chemicals to try and reverse  
the birth process what's more I don't  
know hate hate hate for life hate hate hate (please?)  
and you and me seem just as much

animal as you are as I am as I am and I am and I am kill  
to cure
