Within Passions [Of the?] Sounds
Against

Twice
No sinking

FeversÃ¢Ä!

Fortune

Suffocate
???

All shes ever said
Force of evil heart

???

???the real

Lie, lying, lying there is evil brain

All she ever said

Not leaving

All she ever said

???

[odyssey?]

???

Nothing matters

???
Nothing matters
Wishful thinking
Parasitic junkie
Wraps the noose

Cries the blues
To whoever looks and listens
To a bunch pass spaces turned away
???brain???
No word shall shake my faith

Dead poet with the head that rots in the grave

???leave me alone

Towards the sky
Pushes hand up through the earth
Reaching high

Dead poet

Said once

Once was enough

Time to lie

Time to die

Reaching up towards the sky

As she says once again
Turning me alone
So I left it alone

Leave me alone

Leave me alone

???
[she sits?]
???

???down the stairs
She walks up the stairs
Towards the door
So there
All alone
