

Skinny Puppy **"Tin Omen I"**

Visit "[Tin Omen I](#)" on MotoLyrics.com

every truncheon hit misguided the peoples army
divided united stance amped
out war dance what a ride inner thought of non violent
rebellion outside
dare to die stand and fight show faith return all the
weapons
government says use them right fixed action set in
motion doubting amnesia
potion what to hide red carpet ride guessing right the
jokes on
dark corner the square you bath once a week distorted
the viewpoint
seldom seen wayback in 68 ohio kent state was nothing
so great have of
have not forcing the point shot in the back take it back
down trod soldier
away flower power within kill me kill this way of life and
be
known one by one they'll be coming down altogether
sister machine gun
automatic high what a ride what a trip tripped over the
candlestick tanks
arrive fire wall got to keep the camera alive tell the
world
whats going on here warning shots are fired at the
stomach chest wound
coed falls amped out amped out changing guns for
brooms the guards change
to clean up crews way back in 68 every thing was so
great no way wrong
date keep up the trade balanced charade close circuit
truth used to
remove keep the camera alive
